

KIRAN SHAHI

Computer Science Student · Software Builder

Bellflower, CA · work.kiran01@gmail.com · linkedin.com/in/kiran-shahi · github.com/workkiran01-lab

SUMMARY

Computer Science student at Cypress College with hands-on experience shipping a live web application used by real F-1 international students. Comfortable across the stack — React, Python, Supabase, and AI integrations. Strong record of self-directed projects and a 3.57 GPA. Currently seeking software engineering internships and part-time roles where good engineering meets real impact.

EDUCATION

Cypress College

Aug 2024 — Present

Associate of Science, Computer Science (in progress)

Cypress, CA

- GPA: 3.57 / 4.00
- Relevant coursework: Data Structures, Object-Oriented Programming, Discrete Mathematics, Database Design
- Transferring to a 4-year university to complete Bachelor's in Computer Science

Webster University

Jan 2024 — Jul 2024

Computer Science (transferred)

Webster Groves, MO

EXPERIENCE

Data Management Project Lead

Jan 2026 — Present

International Student Program, Cypress College

Cypress, CA

- Lead the office's data management workflow, restructuring how international student records and program data are organized and maintained
- Standardized record-keeping processes to improve data accuracy and retrieval speed for staff handling 200+ student cases
- Identified opportunities to automate manual reporting tasks and proposed lightweight tooling to reduce repeated data entry

Student Service Assistant

Jun 2025 — Present

International Student Program, Cypress College · Part-Time

Cypress, CA

- First point of contact for newly arrived international students, guiding them through enrollment, immigration paperwork, and campus resources
- Provide one-on-one support to students from Nepal and other South Asian countries, drawing on personal experience navigating the same transition
- Assist program staff with administrative coordination, document handling, and event support during peak intake periods

PROJECTS

F1 Tax Helper — f1-tax-helper.vercel.app

2025 — Present

Full-stack web application · live, used by real students

- Built and shipped a US tax-filing assistant for F-1 international students, addressing a real gap in available guidance
- Implemented an AI chat assistant using Groq API and Llama 3.3 to answer student tax questions in plain language
- Developed a Form 8843 auto-generator using pdf-lib that produces filing-ready PDFs from a guided questionnaire
- Set up Google OAuth authentication, persistent user data, and document checklist tracking via Supabase

- Added rate limiting through Upstash Redis to keep the AI assistant cost-stable under real traffic
- Deployed on Vercel; stack: React, Vite, Tailwind CSS, Supabase, Groq API

Personal Portfolio — github.com/workkiran01-lab/Portfolio

2026

Interactive 3D portfolio site

- Built a custom WebGL hero scene with 4,000 animated particles, scroll-linked camera movement, and nebula depth layers using Three.js and React Three Fiber
- Implemented mobile fallback with CSS-only starfield to maintain 60fps on low-end devices
- Stack: React 19, Vite, Three.js, Framer Motion, Tailwind CSS

TECHNICAL SKILLS

Languages	JavaScript, Python, Java, C++, SQL, HTML, CSS
Frameworks & Libraries	React, Vite, Node.js, Tailwind CSS, Three.js, Framer Motion
Backend & Data	Supabase, PostgreSQL, REST APIs, Upstash Redis, Google OAuth
AI & Tools	Groq API, Llama 3.3, pdf-lib, Git, GitHub, Vercel, VS Code
Concepts	Data Structures, OOP, Database Design, REST API design, UI/UX fundamentals

LANGUAGES

English (fluent) · Nepali (native) · Hindi (conversational)
